

Environmental Monitoring Technician (1 Position)

June – August 2018

35 Hrs/Week

\$15.00/hour

At Kawartha Conservation, we believe our success is dependent on people who want to achieve great things. We have a team of individuals who are talented, dedicated, and are committed to our mission to “*provide leadership in watershed management and conservation*”.

This position offers excellent learning opportunities for an individual interested in assisting the Environmental Technical Services department with various environmental field monitoring programs by collecting relevant field data, conducting data analysis, and performing quality assurance and quality control on historical water quality, water quantity, and aquatic environmental data sets.

The successful candidate will possess effective interpersonal skills with the ability to interact effectively and courteously with the public. You will also demonstrate above-average attention to detail and report-writing capabilities with proficiency in working with spreadsheets and databases

To be successful in this position, your qualifications will include:

- Attendance in a University or college program area such as Water Quality, Limnology, Hydrology, Hydrogeology, or other Environmental Science
- Experience or working knowledge in a variety of relevant field sampling techniques and monitoring protocols related to water quality and / or quantity
- Knowledge of natural water quality principles and local issues
- Understanding of safety procedures and knowledge of use of field equipment
- Knowledge of fluvial geomorphology/hydrology would be an asset
- Ontario Benthos Biomonitoring Network and Ontario Stream Assessment Protocol qualifications an asset
- Fish & wildlife and native vegetation identification skills would be an asset
- Proficiency in Microsoft applications including spreadsheet and databases
- Ability and experience in report writing would be an asset
- Valid M.T.O. driver’s license
- Pleasure Craft Operators Card required
- Valid First Aid/CPR certification, or ability to obtain prior to employment
- Safety training on working around water an asset
- ****IMPORTANT** Applicants must meet the Green Jobs in Green Spaces funding criteria. Eligibility criteria can be located at: [Project Learning Tree Canada](#)**

If you possess these skills and share our corporate values of knowledge, innovation, integrity, teamwork, and performance excellence we encourage you to visit our website at www.kawarthaconservation.com for a full job description, and to review our complete list of corporate values that drive our success.

Applicants are required to electronically submit a cover letter that specifically demonstrates how you meet the position qualifications above, with a resume in one MS WORD or ADOBE PDF, no later than **midnight, May 23rd, 2018** to:

Email: resumes@kawarthaconservation.com
