The Essex Region Conservation Authority is seeking a
Surveyor/Technical Assistant

POSITION TITLE: Surveyor/Technical Assistant

Windsor and Essex County is a vibrant community located in South-Western Ontario. Offering a rich urban community with world class entertainment, art and culture located minutes from an international border with the United States (Detroit, MI) and easy access to rural areas with historical sites, wineries, golf-courses, parklands and extensive trail systems for the outdoor enthusiast.

This position is responsible for the gathering and recording of field survey information and providing general data /GIS support for various activities and projects of the Authority.

DUTIES AND RESPONSIBILITIES:

- Completes field surveys using standard field surveying techniques, gathering technical data for development proposal review and construction projects on behalf of the Authority.
- Performs related tasks including site inspections of development and construction locations to gather technical field information, including terrain topography, field photos and elevation and distance measurements.
- Reviews, organizes, verifies, and records information/data into the Authority’s information systems, as well as performs analysis and evaluation of information and data, to assist with reports or to produce maps.
- Periodically conducts site inspections and undertakes field data collection for other programs of the Authority.
- Creates maps using standard GIS software.
- Utilizes GPS and/or other data collection equipment and instruments.
- Other related technical duties as required or assigned.

MINIMUM QUALIFICATIONS:

- Successful completion of a College Diploma in one of: GIS, Civil Engineering Technology, Resource Management, Environmental Science or any combination of education and experience, acceptable to the Employer.
- Field experience in various survey disciplines, including boundary, topographic, tree surveys, land title surveys, right-of-way surveys; as well as staking, as-built surveying, and legal descriptions.
- Experience with utilizing standard field surveying equipment including basic chain, automatic levels, total station and theodolite.
- Experience in working with GIS databases and editing using ESRI ArcGIS suite, surveying, map interpretation and a working knowledge of resource management issues.
- Knowledge and experience in working with LIDAR data.
Proficiency with standard Microsoft Office applications plus experience with database applications.

Valid Class ‘G’ Driver’s Licence

WORKING CONDITIONS:

Work schedule is normally M-F 8:30 – 4pm, with occasional schedule changes and overtime on short notice.

Environmental Conditions: Work is conducted within a standard office environment and outdoors; regularly requires periods of visual and mental concentration of 2 to 4 hours duration, prolonged sitting (and associated physical strain), manual dexterity, accuracy and attention to detail; site visits, with potential exposure to extreme heat or cold; fieldwork requiring familiarity with standard health and safety matters related to completing field surveys i.e. prolonged standing, walking distances, negotiating obstacles, bending and stooping, carrying and utilizing field survey equipment.

Driving to survey/inspection sites is a significant component of the position.

Hazards and Risks: Risks are associated with field survey site visits and interactions with the general public, as well as site visits where construction is ongoing and heavy machinery is actively operating.
